

Here's a Gift for You...

**one of the handiest
tools you'll ever own.**

Proto's famous Key Ring Screwdriver.

Hot forged from the same fine alloy steel found in so many Proto tools, this little driver proves its quality day after day, year after year.

You'll find a thousand uses for it, all the way from tuning up a typewriter to removing the flint from your lighter.

Our best wishes go with it.
